

ASAP Form Entry Instructions

Please scan the QR code to check the work progress.→

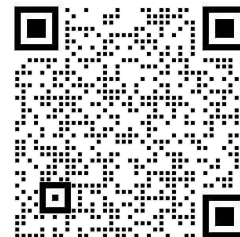

Form Type	Scan the QR code below to access the corresponding form.	Applicable Scenarios
Internal task		Internal task: applicable to technical support within the factory such as showroom tours, accompanying clients for inspections, inspection reports, technical reports, and visa processing.
On-site Projects		On-site projects: applicable to business-trip assignments, including on-site installation, exhibitions/demonstrations, assistance with external office matters, rework/repairs, and customer-complaint-related rework, as part of technical support during business trips.
Customer complaint		Customer complaint: applicable to customer complaints, internal factory complaints, external office complaints, and complaints from other departments.
User Feedback		User feedback: includes non-complaint product issues, product suggestions, customer praise, and other feedback information.
Rework Information		Rework information: includes on-site chargeable rework, on-site customer-complaint rework, bonded-area chargeable rework, and bonded-area customer-complaint rework.

Internal Task:

Applicable to in-factory technical support such as showroom visits, accompanying technical staff for inspections, inspection reports, technical reports, and visa processing.

1. Fill in the link: (you can also scan the QR code beside to fill it in).

https://doc.weixin.qq.com/smartsheet/form/1_wpqQoHBgAAwWgvhlAEc-HwEE4j_NPIMA_856c0a

2. Description of the content to be filled in (using customer visit as an example).

Task Title: Enter the customer's name and country of origin.

Task Details: **Enter the customer's expected visit date and time.**

Task Type: Choose the type of in-factory technical support, such as showroom visit, accompanying inspection, inspection report, technical report, or visa processing.

Priority: Fill in based on actual priority.

Requester: The person who raised the request.

Task Owner: Optional; if no technical support personnel is specified, a technical support member will be assigned.

Planned Date: Enter the task start date.

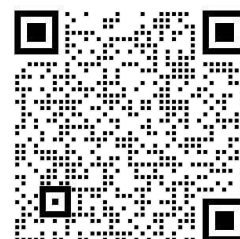

Note: For showroom visit requests, after the form is completed, you do not need to schedule the customer's showroom visit again in the meeting assistant.

On-site Projects:

Applicable to technical support during business trips, including on-site installation, exhibitions/demonstrations, assistance with external office matters, rework/repairs, and customer-complaint-related rework.

1. 1. Fill in the link: (you can also scan the QR code beside to fill it in).

https://doc.weixin.qq.com/smartsheet/form/1_wpqQoHBgAAwWgvhlAEc-HwEE4j_NPIMA_027f19

2. Description of the content to be filled in:

Project Title: (Country – Customer Name – Product Name – Project Type)

Project Details: City, Number, Specific Task Details, Special Requirements / Remarks.

Priority: Prioritize according to actual entries.

Project Type: On-site installation, exhibitions/demonstrations, technical support, external office assistance, rework/maintenance, and customer-complaint-related rework.

Note: If the assignment involves being at the customer's site or external office for more than one month, please select Local Office Assignment.

Start Date: Enter the project start date.

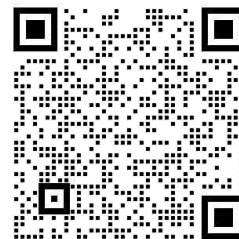

End Date: Enter the project end date.

Customer complaint:

Applicable to formal customer complaints, that is, those submitted through the 'ROE Customer Complaint Handling Process' in OA. For informal complaints, please fill out the User Feedback form below.

1. Fill in the link: (you can also scan the QR code beside it to fill it in).

https://doc.weixin.qq.com/smartsheet/form/1_wpqQoHBgAAwWgvhIAEc-HwEE4j_NPIMA_adcca9

2. Content to Fill In:

Complaint Title: (Order Number – Product – Issue Description).

Level: You may select one of three levels: S / A / B.

Source: Customer complaint, external office complaint, other department complaints, or other sources.

PO: Enter the customer complaint order number.

Product Type: The model of the product involved in the complaint.
